Mr. Nix writes: "Both got so choked up they could hardly breathe and couldn't talk. I gave them Foley's Honey and Tar and nothing else and it entirely cured them." ## BEST OF STYLE IS OF NO AVAIL WITHOUT A VEIL

Is Now the Most Vital  
Adjunct of the  
Hat

THE FAD FOR FUR  
IS GROWING

By MARGARET MASON,  
(Written for the United Press.)

Although you have a stunning hat a swager suit and things like that if you're without a veil, you see, Without avail your style will be.

New York, Oct. 9.—What matter if this be a vale of tears if you are all done up in a veil of lace? Who's going to know whether your face is leaking or wearing a smile that won't come off.

Salome was awfully careless about discarding every one of her seven veils at once but the maid today is much more circumspect and never appears without at least one. This headstrong dancer of old was supposed to have quite a collection of these filmy articles of apparel, in fact quite a corner on the veil market, but any fashionable dame of 1915 turns up her nose behind one of her fifty-seven varieties and sniffs disdainfully at poor old Sal's paltry seven.

When you take the veil however, be sure and take a smart one. The wide black meshed ones with a deep and intricate black lace border are simply stunning and are worn gathered in closely to a tiny turban like a skull cap and then flare out like a lamp shade or the full skirt of a premier danseuse.

The question of length is a vital proposition with these new bouffant veils. The more elaborate lace ones fall well down around the wearers shoulders and burst while other with but a narrow border flare out piquantly just level with your chin.

Many of the smartest hats are made with the veil already attached. It is as vital an adjunct as a flower or a feather.

Beside the lovely black lace ones there are smart taupe, brown and blue ones in a medium mesh with embroidered edges in conventional designs like the Greek key or the Wall of Troy.

The borders for veils of course offer wonderful opportunities for the display of versatility and originality among designers and already we have fringe and fur playing the role of veiling while metallic borders of galoon or tinsel are used on veils through the meshes of which threads of silver and gold gleam fitfully.

You are to be kidded a lot about your top coat this Fall, for the toppest top coats of them all are made of white kid, if you please. Amazingly startling they are too with linings of brilliant green, scarlet, purple or orange. Others of white oilcloth vie with the kid effects and linings are more often in serge in these coats than of silk. Grey kid and tan are also shown but naturally the white creations are the newest and most striking of garments. Oh you kid coat, you're bound to get milady's goat if doing hubby doesn't come through for one.

Leather and kid trimmings are very good for frocks and blouses as well as coats and buttons and bindings of bright colored leathers add up-to-date touches to many a Fall and Winter toilette.

You simply can't get away from fur however, no matter if you go further and strip the animal of his inner skin. Beaver bandings on seal brown satin or chiffon velvet is one of the loveliest combinations of the season and you can't go far wrong if you acquire a gown of either of these two materials beaver banded.

Skunk banding on amethyst satin is charming although skunk is mighty expensive this year. They are offering as a substitute, flying squirrel fur, but the effect is hardly a happy one as the flying squirrel is soft and matted looking and undoubtedly would show to advantage only on a galloping horse or well, say a flying squirrel. As a matter of fact and good taste an imitation fur banding is, worse than none but if you have the price there's really nothing to beat the band this season provided it's a real fur band.
